Continuation of Substance of Interview including description of the general nature of what was discussed: I called Mr. Alkalay to discuss possible 101 issues regarding the independent claims 29, 57, and 63 wherein the method claims are not linked to an apparatus and to propose new amended claims that will resolve said issues. Mr. Alkay, after carefully reviewing the proposed amendments, graciously authorized an examiner's amendment for entering the proposed amendments so as to render the claimed invention in condition for allowance.
